

# Cornell Notes

Name Marzelle N.

Date Sept 29, 2011

Topic Integument Presentation

Class/Subject Mr. Jobe Anatomy Per. 4

11:21

In Class Activity/  
Research Project

1. Choose a homeostatic imbalance of the integument
2. Identify the cause of the imbalance
3. How does the imbalance affect the cells of the integument
4. How does it affect the entire organism.
5. How does the body try to restore balance?  
(Hint: Sometimes it can't!)
6. How can science/medicine treat the imbalance

- \* Can do a powerpoint/movie-maker
- \* Remember to properly cite sources
- \* Due date will possibly be Tues/Wed of next week.  
Mr. Jobe will confirm

12:15
